SUBJECT INDEX, VOLUME 51

Abdomen
  blunt trauma
    duodenal mucosal injury and, 591
    extrahepatic injuries in, case report, 159
    hollow viscus injuries, computed tomography diagnostic role, 26
    interventional radiology role in management, 526
    laparotomy for retroperitoneal free air after, 994
    peritoneal lavage and CT in evaluation of, 1128
    pneumobilia and, case report, 391
    splenic, ultrasound imaging feasibility, 37
  compartment syndrome
    percutaneous treatment of, 1062
    positive end expiratory pressure and (letter), 419
  penetrating trauma
    chair leg as cause, case report, 165
    damage control in exsanguination, 261
    stab wounds, peritoneal lavage criteria for emergency room discharge, 939
    ultrasound role in, 320
Abdominal decompression, before organ harvesting, 1073
Abdominal wall
  closure, in abdominal compartment syndrome, 1204
  hernia, diaphragmatic hernia and, posttraumatic, case report, 583
Acetabulum
  fracture of
    complications association with operative treatment, 1098
    transverse, contact stress after reduction of, cadaveric model, 704
    vascular injury and, case reports, 382
  trauma, deep venous thrombosis evaluation by magnetic resonance venography and, 178
Acidosis, saline use in traumatized patients in shock and, current opinion, 173
Adhesion formation, suture technique effects on, after repair of flexor tendon lacerations, canine model, 917
Adhesion molecules, hemorrhagic shock and, review, 408
Adolescents
  femoral shaft fractures treatment, 1182
  trauma, adult vs. pediatric ICU, outcomes, 478
Adrenal cortex, severe inflammation and, review, 800
Adrenal crisis, after traumatic bilateral adrenal hemorrhage, 587
Advanced Trauma Life Support, human patient simulators role in resident training, 17
Airbag inflation, bilateral atlantoaxial rotary dislocation and, in adult, case report, 572
Airway disruption, traumatic, in children, 1200
Airway management
  blunt tracheobronchial injuries and, case report, 568
  in trauma patients, emergency medicine physician role, 1065
Alcohol, motor vehicle crashes related to, conviction process of injured drivers, 551
Alcohol abuse
  intoxicated passenger screening, 1083
  unintentional adult injuries and, epidemiology in rural population, 758
Allis clamps, vascular control in retroperitoneal venous injuries, 170
American Association for the Surgery of Trauma, 61st meeting
  abstracts, 196
  program schedule, 184
American College of Surgeons, level I trauma center verification, hospital performance and patient outcomes, 294
Amputation
  lower extremity, underwater dive tank explosion, 621
  upper extremity, by lion, case report, 1014
Anastomoses
  gastrointestinal, construction in traumatic injury (letter), 180
  intestinal, anemia effects on healing of, rabbit, 363
Anemia, intestinal anastomoses healing and, rabbit, 363
Aneurysm, false
  presenting as ulnar nerve palsy, after penetrating forearm trauma, 144
  replaced right hepatic artery, traumatic hemobilia caused by, case report and literature review, 153
Angiography
  blunt splenic trauma, 1161
  computed, brain penetrating trauma and, S26
Antibiotic prophylaxis
  group A streptococcal infection in burn injuries, 352
  penetrating brain injury and, S34
Antiseizure prophylaxis, penetrating brain injury and, S41
Aortic injuries, minimal, diagnostic techniques and, 1042
Aortic transection, traumatic, stent-graft repair with left subclavian artery occlusion, case report, 326
Apoptosis, lymphocyte, in surgical trauma, 93
Arginase, mononuclear cell, surgery induction of expression and, 497
Arterial bleed, after pelvic ring injury, vaginal wall laceration and, 777
Arterial injuries, blunt, endovascular stent use in treatment of, 901
Arteriovenous fistula
  penetrating brain injuries and, S26
  pseudoaneurysm and, after open tibia fracture managed with embolization, 781
Atlantoaxial rotary dislocation, bilateral, airbag inflation and, in adult, case report, 572
Autofluorescence, later scanning confocal microscopy, partial-thickness burn injury depth assessment, 98
Axonotmesis, compressive peripheral nerve injury, stimulation voltage for severity determination, 503

Ballistics, penetrating brain injury and, S3
Base deficit, admission, in pediatric trauma and, injury severity and outcome predictions and, 332
Benchmarking, population-based trauma registries and, current opinion, 725
Biliary tract, extrahepatic injuries, in blunt abdominal trauma, case report, 159
Biloma, posttraumatic intrahepatic, inferior vena cava syndrome and, 815
Bladder, intra-abdominal pressure estimation and (letter), 1218
Bladder rupture, after blunt trauma, diagnostic imaging, 683
Blast injuries, foreign body secondary to, penetrating renal trauma and, 594
Blood-brain barrier, opening of, arterial hypertension effects on intracranial pressure after, cats, 490
Blunt trauma
  abdominal
    case report, 391
    duodenal mucosal injury and, 591
    extrahepatic biliary tract injuries in, case report, 159
    hollow viscus injuries, computed tomography diagnostic role, 26
    interventional radiology role in management, 526
    laparotomy for retroperitoneal free air after, 994
    peritoneal inflammation and, 253
    peritoneal lavage and CT in evaluation of, 1128
    splenic, ultrasound imaging feasibility, 37
    ultrasound effects on computed tomography scanning and, 545
  arterial injuries, endovascular stent use in treatment of, 901
  bladder rupture after, diagnostic imaging, 683
  carotid and vertebral artery injuries, liberalized screening for, 308
  cerebrovascular, diagnosis and treatment of, 279
  cervical, neck abscess after, case report, 146
  cervical tracheal transection from, case report, 568
  chest
    cardiopulmonary dysfunction, immunosuppression, and neutrophils after, 239
    cyclophosphamide and, 239
    pneumothorax and, 677

pulmonary contusion and, acute respiratory distress syndrome after, 223
routine CT in primary evaluation of, 1173
V4R utility in, 60
duodenal, duodenography diagnostic role, 648
head, cervical spine clearance using helical CT, 652
intracranial, serial CT utility in, 870
kidney, interventional radiology role in management, 526
liver, intraabdominal pressure monitoring as guideline in treatment of, 44
multiple, multiple organ failure as cause of morbidity in, 835
pulmonary parenchymal and bronchial arterial injuries secondary to, 418
splenic
admission angiography advantages and pitfalls, 1161
age and gender effects on outcome, 887
thoracic, aortic branch vessel injury after, angiography role in detection, 1166
thoracic aorta, early in-hospital mortality, prediction factors, 906
thoracic aortic transection, endoluminal stent-graft repair for, case report, 376
uterine rupture, airbag deployment and, 1192
